- 18. Somalia faces new desert locust invasion.
- 19. FA Cup draw: Manchester United to host Liverpool in fourth round.
- 20. Australian FI Grand Prix in Melbourne postponed until November because of coronavirus

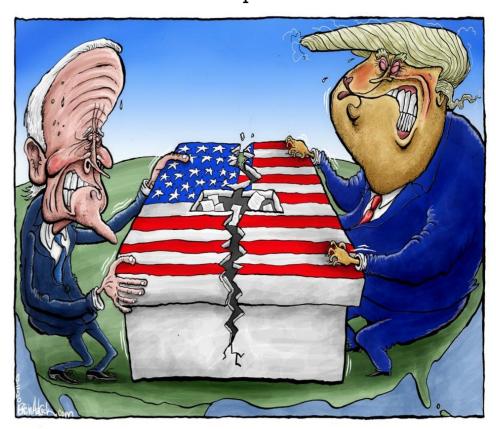

Aarya Chinchpurkar, Journalist, International News, ISWKi, The DICE.

# USA Welcomes it's 46<sup>th</sup> President and team!

January 14, 2020 20.00 GST Muscat, Oman.

Former vice president Joe Biden has won the presidential election. He will become the 46th president of the United States. His running mate was Kamala Harris. She will become vice president. The two will be sworn in on Inauguration Day, January 20, 2021.

The Associated Press announced Biden's win on November 7,2020. It was four days after Election Day, Biden was named the winner after taking Pennsylvania. That pushed his total number of electoral votes over 270. A presidential candidate needs at least 270 electoral votes to win. Biden has won the popular vote, too. As of November 12, he had about 77 million votes. Trump had about 72 million.

Biden was born in Scranton, Pennsylvania, in 1942. When he was 10, his family moved to Delaware. Biden graduated from the University of Delaware. He earned a law degree at Syracuse University, in New York. In 1972, he was elected as a U.S. senator for Delaware.

Kamala Harris made history on November 7. She became the first woman to be elected vice president of the United States. She will also be the first Black person and the first person of South Asian descent to hold that office. She was born in Oakland, California, in 1964. Her mother came to the U.S. from India. Her father came from Jamaica. Harris attended Howard University. The school is in Washington, D.C.

Aryan Joshi, Journalist, International News, ISWKi, The DICE.

#### When experts share life lessons!

Mother's are experts nominated by God to raise children into honest, respectful and wholesome adults. But so many of us think we know more than our Mum's and we try to overshadow our mothers, just then MUM thunders and says **MUM's the WORD!** (means be quiet, she is also our BOSS!). It is my pleasure to introduce 4 beautiful ISWKi Mum's to share their life views during Covid times and words of wisdom with the ISWKi family. So Mum's the Word and read up on the Positivity discussion!

Mrs. Laxmi Kandukuri (grade 8 parent) a.k.a LK, Mrs. Sangitha Kiran (grade 7 parent) a.k.a SK, Mrs. Jeena Rejeesh (grade 5 parent) a.k.a JR, Mrs. Jigita Hiren Rao (grade 5 parent) a.k.a JH

### \*OPTIMIST

Q1) What is the most positive outcome of Covid - 19?

**LK**: We learnt how to value life itself and resources.

**SK**: We build up better relationships and followed better hygiene as regular practice.

**JR**: Pollution reduced and personal hygiene improved.

**JH**: Environment is improving, people are taking time out for families and are spending great time with each other.

#### Q2) Do you think children are coping during Covid -19?

LK: Yes, children are always very adaptive to any circumstances. Homes where there is a strong family support from parents, their children are coping well.

SK: Yes, they are coping with the situation really well.

Children are much more focused and understand the situation better. I think, parents have to help their children to navigate their feelings to cope up with the pandemic.

JR: Yes, adaptability is better and faster in children than in adults.

**JH**: Depends on the age group, children 6 and above understand the situation, small kids become cranky sometimes as they can't go out or meet friends.

#### Q3) What can children do to help mother's during Covid - 19?

**LK**: By understanding how to live in the current situation - children need to follow their routine which contributes to maintain a positive environment in the house. They can try new skills which will be useful in their daily routine like cooking, doing laundry etc.

**SK**: Keeping their things in order, maintaining their own hygiene and cleanliness around them.

**JR**: Support in household chores.

JH: Kids can help mothers with household chores by arranging dry clothes, cleaning the house, arranging lunch and dinner table, prepping morning breakfast (have to stay safe in kitchen) without using gas or sharp objects, sometimes giving foot, hand and head massages.

**LK**: By being responsible citizens, following the guidelines of the government. Be compassionate and helpful as much as possible.

**SK**: We have to be a supportive friend, a better partner, a better co-worker and it's also our duty to keep our surroundings clean and hygienic.

JR: Realise the wrongs the human race commit to nature, welcome and share ideas to beat the effects of lockdowns/ isolated lifestyles, help the needy in the community.
JH: This is a time to show humanity, help people in need, if you are Covid - 19 positive - quarantine yourself to save others, avoid going out without any reason. After returning home wash hands, take a bath & wash clothes. Use sanitizer.

#### Q5) What is the one biggest advise you will pass forward to children in the coming generation?

LK: Be ready to face any challenges and be open to adapt to any changes that life might throw at you as surprises.

SK: Every dark and gloomy cloud has a sliver lining. My piece of advice is to be "happy" and happiness lies within each of us. Show \*mindfulness \*gratitude \*compassion \*thoughtfulness - use them if you can, even in a small way.

JR: Respect nature and the gift of life, always be optimistic and focus on the brighter side of things, and try to change crisis into opportunities.

JH: Children be helpful to others, be honest, take care of the environment, plant more trees, be kind to humans, animals and nature.

Be respectful and polite with everyone no matter who the person is.

Arnav Jaykrishnan, Student Editor, ISWKi, The DICE.

## Old World Monkey

The kipunji (Rungwecebus kipunji), also known as the highland mangabey, is a species of Old World monkey that lives in the highland forests of Tanzania. The kipunji has a unique call, described as a 'honk-bark', which distinguishes it from its close relatives, the grey-cheeked mangabey and the black crested mangabey, whose calls are described as 'whoop-gobbles'. Though it was originally thought to be a member of the Lophocebus genus genetic data later placed it as its own separate genus Rungwecebus. The kipunji is the first new monkey genus to be discovered since Allen's swamp monkey in 1923.

The kipunji was independently discovered by researchers from the Wildlife Conservation Society, the University of Georgia, and Conservation International, in December 2003 and July 2004, making it the first new African monkey species discovered since the sun-tailed monkey in 1984. Originally assigned to the genus Lophocebus, genetic and morphological tests showed that it is more closely related to the baboons (genus Papio) than to the other mangabeys in the genus Lophocebus, and that Lophocebus was diphyletic, meaning that species with differing genealogies have been mistakenly lumped together.

Scientists have assigned it to a new genus, Rungwecebus, named after Mount Rungwe, where it is found.

Zoologists were initially skeptical of the existence of the kipunji until its discovery, as traditional tales of the Nyakyusa people described the monkey as both real and mythical.

#### Scientific name:

Rungwecebus kipunji (Primate)

Tribe: Papionini

Gautam Kanth, Wild life Journalist, ISWKi, The DICE. **Higher classification:** 

Rungwecebus

Phylum: Chordata

- 1. The amount of water on Earth is constant, and continually recycled over time: some of the water you drink will have passed through a dinosaur.
- 2. 40 percent of all bottled water sold in the world is bottled tap water.
- 3. 27,000 trees are felled each day for paper.
- Paper can be recycled only six times. After that, the fibers are too weak to hold together.

Daniel Fady Awadallah, Environmentalist, ISWKi, The DICE.

A sudoku puzzle...

Sudoku is a MENTAL GAME. It is a math game that helps sharpen your brain power. It can be played online as well as on a sheet.

Players insert the numbers one to nine into a grid consisting of nine squares subdivided into a further nine smaller squares in such a way that every number appears once in each horizontal line, vertical line, and square.

LEONHARD EULU was the one who invented SUDOKU.

Rishabh Panchal, Sudoku Enthusiast, ISWKi, The DICE.

Globally the trend seems to be that children are less affected by the coronavirus. What could be the possible reason?

It is a very complicated question with no simple answers. Children have a smaller number of expressions of Certain receptors (ACE-2) where the Covid -19 virus binds and causes diseases in comparison to Adults.

How will the winter season impact the Covid -19 pandemic?

In winter usually other seasonal flu infections are also very common so it is very important and difficult to differentiate between seasonal flu and Covid -19 infection. So, children may get infected with either seasonal flu or mixed infection which makes it obligatory to follow quarantine protocol.

What are the extra precautions that children should take during these times?

Children have to follow hand hygiene measures and safety precautions. They need to wear a face mask, social distance appropriately, and wash hands which most children are following judiciously.

What does the latest development in terms of the coronavirus vaccines mean for humanity?

Vaccine is the ray of hope which all of humanity are awaiting eagerly. There is no concrete data about the effectiveness of proposed upcoming vaccines. Hence it will be quite premature to comment on the effectiveness and potency of vaccines but I hope research and trials will give us a safe, efficacious vaccine as soon as possible.

Please tell us one of the heartwarming experiences you have had even during these desolate times and how it affected you?

There are many stories as Covid -19 has touched everyone directly or indirectly. What I have learnt is stay connected, try to balance your life and be helpful to those who are affected if possible.

# Promising news on the Covid-19 Vaccine

January 12, 2020 20.00 GST Muscat, Oman.

An experimental COVID-19 vaccine from Pfizer Inc. and BioNTech SE was 95% effective in the final results from a pivotal study and is showing signs of being safe for use as emergency medicine for use by the general public.

Days earlier, Moderna Inc. reported similarly strong preliminary results for its shot, which was 94.5% effective.

The accumulation of positive data for the two shots suggests that drug makers can develop vaccines capable of protecting against infections causing Covid-19 and its symptoms and that life could return to normal if sufficient numbers of people get inoculated.

The COVID-19 vaccination campaign that is going on seamlessly across Oman is all set to continue with the same momentum as the second batch of Pfizer COVID-19 vaccine reaches the country.

"Roll out across countries as planned by local medical teams and volunteers", say WHO experts

The target group among the general community has been identified as those over 65 years of age and with diabetes as well as those with chronic lung disease or suffering from kidney failure.

On line registrations and support for patients are offered across hospitals.

Thanya Anandkumar Deputy Editor, Medical News, ISWKi, The DICE.

#### The Hero lost in a surprise!

November 02, 2020 20.00 GST Muscat, Oman.

The match between Real Madrid and Liverpool was intense and nail biting. Every minute was spent at the edge of the seat hoping for a turnaround in the match. While playing the Champions League match, the ace football team Real Madrid did not win. Real Madrid lost 5-1 to Liverpool. The supports of the Real Madrid team were upset and disheartened.

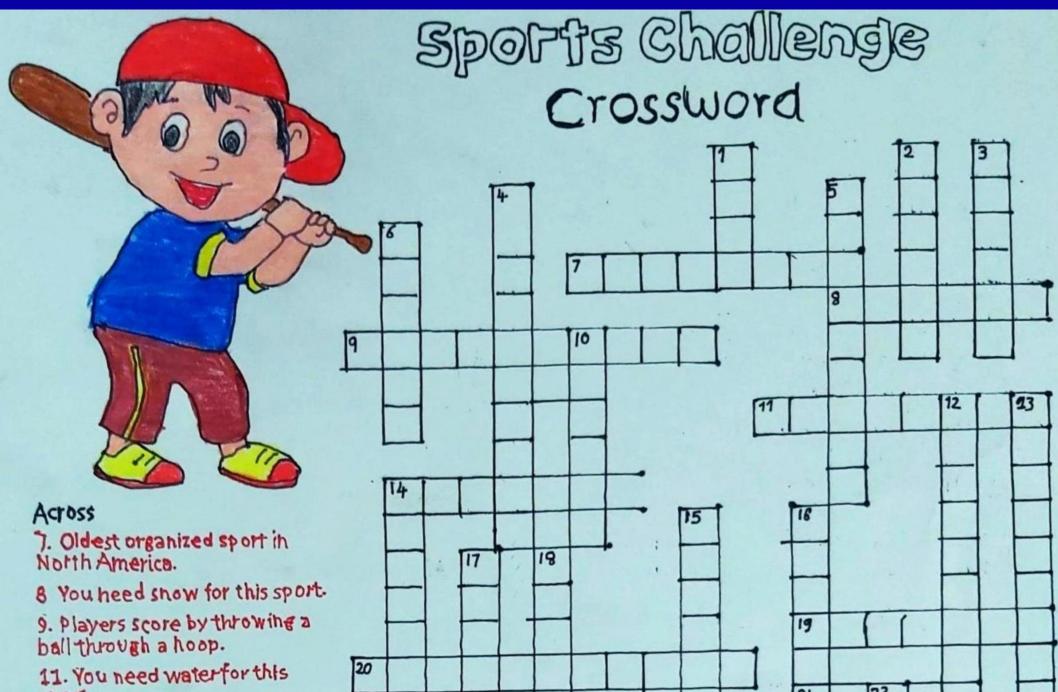

Salah scored 3 goals in 35 minutes of the match time and Mane scored 2 goals in 30 minutes of the match time ensuring a win for their team. Real Madrid lost because they did not play with team effort, it was each player to himself. Ronaldo scored 1 goal in the last 2 minutes of the match time.

Cristiano Ronaldo said,
"It is terrible! We had
never ever lost like that!"

Nour Kadry, Sports Journalist, ISWKi, The DICE.

REVIEW:
A MARVELOUS AND
MAGICAL CHRISTMAS
MUSICAL!

Jingle Jangle is a heart warming musical film. Honestly, I thought it was going to be a boring movie aimed at babies. But how surprisingly and wonderfully wrong I was!! I enjoyed the original Netflix movie from the get go. It was full twists and turns, musical scores and dances, mechanical toys and the grand masters book of toys, amazing hairstyles and fancy period costumes that lit up the screen, everything just perfect to keep me engaged and glued to my television screen!

The entire movie felt like a hybrid between a theater play show and an ET movie on screen!!

My favorite character was the older Jeronicus Jangle. He reminded me of my own grandfather who was always tinkering with mechanical items since he was an engineer and like Jeronicus he is sometime grumpy but always loving and very good with handling curious children just like me. Keegan Michael Key a very good comedian, plays a believable villain who learns his lesson the hard way as he got arrested for cheating Jeronicus Jangle.

I learnt we should never steal or plagiarize like Gustafson (villain), nor to be like the selfish, manipulative, prideful and self-centered Don Juan Diego (Spanish doll voiced by Rickey Martin).

Instead we should be more like Journey Jangle (grand daughter) who never gives up on her family, is a creative solution provider and works very hard to achieve greatness in life no matter the obstacles!

Arnav Jaykrishnan, Student Editor, ISWKi, The DICE.

#### <u>Nature</u>

Nature is everywhere, everywhere I go.
Nature is everything that grows on land, you know.

From streams that gleam
To dogs that sleep.
And mice that squeak
To stars that beam.

And fish in the flowing rivers Being caught by bears.

Oh mother nature, thank you Oh mother nature, you are beautiful too!

#### <u>Scared Me!</u>

HELP!!!

On one dark night,

I screamed out in fright.

I looked out of the window,

Just after I saw a shadow.

The widow who lived near my house,

Heard me scream ouch!

I trembled and fell over my snout,

And let out a huge shout.

Sivani Rejeesh, Poet, ISWKi, The DICE.

My Travel Blog

#### **Mysteries of the Egyptian Desert**

November 22, 2020 11.00 GST Muscat, Oman.

The Egyptian pyramids are ancient pyramid-shaped masonry structures located in Egypt. As of November 2008, sources cite either 118 or 138 as the number of identified Egyptian pyramids. Most were built as tombs for the country's pharaohs and their consorts during the Old and Middle Kingdom periods.

The earliest known Egyptian pyramids are found at Saqqara, northwest of Memphis, although at least one step-pyramid-like structure has been found at Saggara, dating to the First Dynasty: Mastaba 3808, which has been attributed to the reign of Pharaoh Anedjib, with inscriptions, and other archaeological remains of the period, suggesting there may have been others. The otherwise earliest among these is the Pyramid of Djoser built c. 2630-2610 BC during the Third Dynasty. This pyramid and its surrounding complex are generally considered to be the world's oldest monumental structures constructed of dressed

The most famous Egyptian pyramids are those found at Giza, on the outskirts of Cairo.

Several of the Giza pyramids are counted among the largest structures ever built. The Pyramid of Khufu is the largest Egyptian pyramid. It is the only one of the Seven Wonders of the Ancient World still in existence.

#### Egypt's latest discovery

November 8, 2020 15.00 GST Muscat, Oman.

masonry.

Egypt's antiquities minister announced on Friday the discovery of a princess's tomb dating from the fifth dynasty (around 2500 BC) in the Abu Sir region south of Cairo. "We have discovered the antechamber to Princess Shert Nebti's tomb which contains four limestone pillars," Mohamed Ibrahim said. The pillars "have hieroglyphic inscriptions giving the princess's name and her titles, which include "the daughter of the king Men Salbo and his lover venerated before God the all-powerful, "he added.

Ibrahim said that the Czech institute of Egyptology's mission, funded by the Charles University of Prague and directed by Miroslav Bartas, had made the discovery. "The discovery of this tomb marks the beginning of a new era in the history of the sepulchers at Abu Sir and Saqqara Ibrahim said.

#### **NEW YEAR'S**

# RESOLUTION?

Prathiksha – Spend more time with my family.

Diya – Achieving my goals the most.

Thanya – To be kind, Caring and Brave to others around me. I would also like to give my best efforts to protect and to do well around my loved ones.

Aarya - Eat healthy food and barely eat junk so as exercise regularly.

Nour – I promise to learn to do flips in 2021.

Aryan – I want to learn to bake.

Saad - Getting more better health wise, more responsible and of course more focused.

Rishab - My 2021 new year resolution is to do good in sports since I had a big pause in my sports so I wish to do good in sports.

Gautam - To increase my vocabulary.

Daniel - My goal is to be more serious in my studies in the new year. Also I want to become better in my behavior.

Rishika – Be Happy.

Aariz - To do better in sports and run faster.

Sivani – Be happy to live a real life. Never give up. Fail a 100 times but keep trying a 1000 times. Be responsible, be reflective and improve in speaking skills and study well.

Afnan - I will improve my running skills.

Marina - I will bring good marks in my tests.

Arnav – Strive to do something bigger than myself for the joy of others. To learn swimming, build a tiny robot and be kinder to everyone around me.

Niti - I will get up at 6 in the morning and so exercise and I will dance for 1 hour every day.

#### **Problem**

I am a grade 5 student and I am new to school. I am not sure how to make friends here during Covid -19 times as school is shut down. I am not sure if I am able to communicate properly with my classmates and if they like me. I have heard some students make fun of me and complain about me to the teacher saying that I don't participate in class. I don't think my classmates are being fair to me, what should I do, please help me.

#### **Solution**

Dear Student, Covid has been very difficult for everyone and more so for you students, where you can't meet and interact with friends physically. In order to make new friends, since you are new to the school, you can plan a virtual play date with maybe 1 or 2 children first . Slowly build a friendship with them and through them you can form more friends.

As for the interaction during the class, it is but natural, since you are new. It will take a little time for you to settle down. Once you are more comfortable, I'm sure you'll be participating wholeheartedly very soon.

Just believe in yourself.

Your Student Counsellor.

If we could look into each others hearts, and understand the unique challenges each of us faces, I think we would treat each other much more gently, with more love, patience, tolerance, and care.

Marvin J Ashton.

pesitivistic.com

#### Student Editor - We are Growing!

Wow, what a rush to be delivering the 2<sup>nd</sup> Edition of ISWKi, The DICE, a learner's E-paper. The contributions are only getting bigger with over 20 students across Grade 5 contributing their valuable experiences, ideas, thoughts and efforts into this edition. This learner's E-paper has now become a tool to practice what we learn and preach thinking and writing skills, teamwork, trust, discipline, adaptability, flexibility, camaraderie and humbleness to ask for help. We still have much to learn and with every passing edition I am sure we will get better and better.

Terms 2 has seen us all get very comfortable with virtual learning. We were virtual hosts for the Founders Day event. A special thanks to Mr. Nazim Sir, for always believing in us and giving us that extra boost of confidence to do more and even surprise ourselves in what can be achieved. You will be missed dearly, and I am sure all teachers and students alike wish you the very best on your new journey.

Much gratitude to our loving teachers Ms. Aeman Khan and Ms. Thangalakshmi for monitoring us, guiding us through the up's and down's of planning, researching, writing and executing the ISWKi, The DICE learner's E-paper. It has been a very demanding time, especially with the year end joys round the corner and everyone in a celebratory and joyous mood!!

However, let's buckle up for the last phase of our academic year. It will be a rush to finish our portions, have a blast of a sports day and crown the Champions in the ultimate House Battle – Who will take their legacy to greater heights? The weather is awesome too, so do take time out and enjoy the outdoors with all the safety protocols in place.

#### Let Us Be The Difference!

#### **House Activities**

The school is bustling with house activities. Each of us are made up of the cardinal elements, so light up the Agni in you, rush like the Vaayu to participate, be adaptive like the Jal while you balance your studies and activities like the Prithvi. Your house sends out the clarion call to one and all!

The following activities are ongoing so join in:

- 1) Virtual Sports competition
- 2) Sports video challenge
- 3) Final Sports day challenge
- 4) ACT Universal, Ajman, UAE is organizing International Inter School Hindi Poetry Recitation Contest 2021.

Arnav Jaykrishnan, Student Editor, ISWKi, The DICE.
